可能遇到的报错

报错 1：AttributeError: module ‘numpy‘ has no attribute ‘int‘

在训练 YOLO 模型时突然发现这个报错，后来发现是 numpy 版本问题，yolo 官方给的是大于等于 1.18.5，当你执行 pip install -r requirements.txt 命令时，他默认安装为 1.24，但是再 numpy 版本更新时 numpy.int 在 NumPy 1.20 中已弃用，在 NumPy 1.24 中已删除。

AttributeError: module numpy has no attribute int .报错解决方案

在训练 YOLO 模型时突然发现这个报错，后来发现是numpy版本问题，yolo官方给的是大于等于1.18.5，当你执行pip install -r requirements.txt命令时，他默认安装为1.24，但是再numpy版本更新时numpy.int在NumPy 1.20中已弃用，在NumPy 1.24中已删除。下面给2个解决方案：

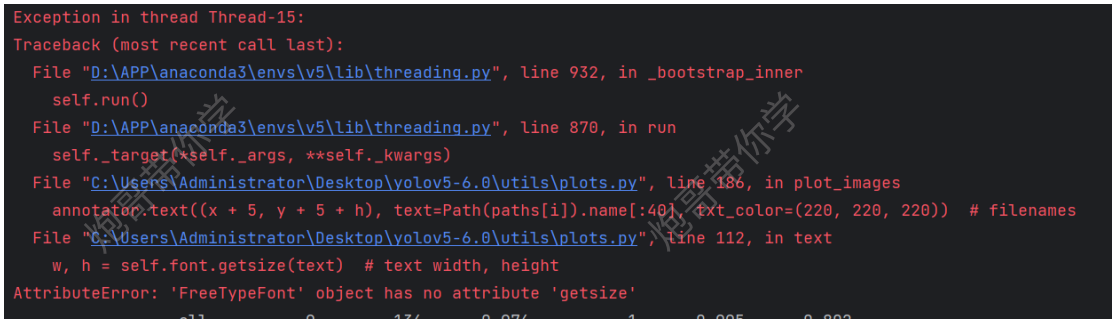

1. 重新安装numpy

```
pip uninstall numpy
pip install numpy==1.22
```

2. 改代码（不太推荐）

找到报错地方，将numpy.int更改为numpy.int_

报错 2：attributeerror: ‘FreeTypeFont‘ object has no attribute ‘getsize

```
Exception in thread Thread-15:
Traceback (most recent call last):
  File "D:\APP\anaconda3\envs\v5\lib\threading.py", line 932, in _bootstrap_inner
    self.run()
  File "D:\APP\anaconda3\envs\v5\lib\threading.py", line 870, in run
    self._target(*self._args, **self._kwargs)
  File "C:\Users\Administrator\Desktop\yolov5-6.0\utils\plots.py", line 186, in plot_images
    annotator.text((x + 5, y + 5 + h), text=Path(paths[i]).name[:40], txt_color=(220, 220, 220))  # filenames
  File "C:\Users\Administrator\Desktop\yolov5-6.0\utils\plots.py", line 112, in text
    w, h = self.font.getsize(text)  # text width, height
AttributeError: 'FreeTypeFont' object has no attribute 'getsize'
```

已解决：attributeerror: ‘FreeTypeFont‘ object has no attribute ‘getsize‘

这是因为安装了新版本的 Pillow (10)删除了该getsize 功能，降级到 Pillow 9.5 解决了该问题

可以尝试以下方法进行解决：

```
pip install Pillow==9.5
```

报错 3：AttributeError: module ‘PIL.Image‘ has no attribute ‘ANTIALIAS

```
  File "C:\Users\Administrator\Desktop\yolov5-6.0\train.py", line 517, in main
    train(opt.hyp, opt, device, callbacks)
  File "C:\Users\Administrator\Desktop\yolov5-6.0\train.py", line 427, in train
    callbacks.run('on_train_end', last, best, plots, epoch)
  File "C:\Users\Administrator\Desktop\yolov5-6.0\utils\callbacks.py", line 76, in run
    logger['callback'](*args, **kwargs)
  File "C:\Users\Administrator\Desktop\yolov5-6.0\utils\loggers\__init__.py", line 137, in on_train_end
    self.tb.add_image(f.stem, cv2.imread(str(f))[..., ::-1], epoch, dataformats='HWC')
  File "D:\APP\anaconda3\envs\v5\lib\site-packages\torch\utils\tensorboard\writer.py", line 557, in add_image
    image(tag, img_tensor, dataformats=dataformats), global_step, walltime)
  File "D:\APP\anaconda3\envs\v5\lib\site-packages\torch\utils\tensorboard\summary.py", line 401, in image
    image = make_image(tensor, rescale=rescale)
  File "D:\APP\anaconda3\envs\v5\lib\site-packages\torch\utils\tensorboard\summary.py", line 443, in make_image
    image = image.resize((scaled_width, scaled_height), Image.ANTIALIAS)
AttributeError: module 'PIL.Image' has no attribute 'ANTIALIAS'
```

【已解决】AttributeError: ‘PIL.Image‘ object has no attribute ‘ANTIALIAS‘

问题描述：使用PIL包的时候报错AttributeError: ‘PIL.Image‘ object has no attribute ‘ANTIALIAS‘

分析原因：PIL高版本的Image类中移除了ANTIALIAS方法。

解决办法一：将PIL.Image.ANTIALIAS(Image.ANTIALIAS)改为PIL.Image.LANCZOS(Image.LANCZOS).

不推荐

解决方法二：降低pillow的版本。

推荐

```
pip install pillow==9.5.0
```
